6 Basic SADDLE SIZE CHOICES: See website info for more guidelines
Please realize that this is an approximate guide, and that saddle seats may vary slightly, due to the handcrafting process and leather thickness

If you are in between sizes, and/or have large thighs/buttocks, we generally recommend going to a larger size saddle, so that you don't feel restricted in any way. Long legs also need larger seat size so that knee doesn't project too far forward and restrict natural angle/access to your balance point.

SIZES: Please remember that our buck rolls shorten seat room compared to normal saddles
